

2025 Street Reconstruction Project Update

City of Lakeville Public Works 

Construction Update

Private Features in City Right-of-Way

We ask that residents locate private features in the City right-of-way so the contractor is made aware that there may be irrigation or invisible dog fences in the boulevard. The contractor will do their best to try to minimize damage to these systems and will repair during restoration.

[Watch this video demonstrating areas impacted by construction.](#)

[Get the most up-to-date construction schedule.](#) A phasing map will be available soon.

Phase 1 - 170th Street

- **Week of May 27:** The contractor will begin setting up both traffic and erosion control. Temporary water will also start to be set up. Residents will be notified directly via door hangers if they are to be placed on temporary water and what that work consists of.
- **Week of June 2:** The contractor will continue setting up temporary water.

If individual driveways are impacted by construction, residents will be notified via door hanger to discontinue use and for how long.

Please be cautious and reduce vehicle speeds when approaching crews working in the roadway. Construction personnel will notify drivers, via hand signals, when it is safe to pass around moving equipment.

Further updates will be provided as the project progresses. ***The schedule may be shifted due to weather and unexpected delays.***

Contact Jon Muma, Lakeville Construction Inspector, at 952-985-2795 or jmuma@lakevillemn.gov for more information.
